BILATERAL AGREEMENT
European Organ Exchange Organizations

between

Stichting Eurotransplant International Foundation

AGENȚIA NAȚIONALĂ DE TRANSPLANT	
INTRARE	Nr. 1918
IEȘIRE	
20 17	Luna 06 Ziua 29

and

Romanian National Transplant Agency

Eurotransplant International Foundation and the Romanian National Transplant Agency agree on the possibility and importance of the exchange of organs for transplant patients between their organizations. In this agreement the conditions for this are stipulated. This agreement is for an indefinite period of time and can be dissolved by one party or both parties at any time.

1. Eurotransplant International Foundation and the Romanian National Transplant Agency mutually guarantee quality control, origin and traceability of organs exchanged.
2. In no way an organ shall, in accordance with to the ethical principles of The Transplant Society and the World Health Organization, be product of trafficking, trade or coercion.
3. Eurotransplant International Foundation and the Romanian National Transplant Agency mutually guarantee observance to the existing laws of organ donation applicable in their countries.
4. No patient may appear simultaneously on a waiting list for organ transplantation in both organizations.
5. Organs for which no suitable recipient can be found in one of the two organizations may be offered to the other.
6. Requests for organs for patients with special needs, as patients with lung pathology who need lung transplants and such as highly urgent liver and heart patients may be communicated between the two organizations.

7. There is no charge for organs that are exchanged between the two organizations. At present only expenses for transportation of the organs are covered by the recipient transplant center. The reimbursement of transportation costs are facilitated by the organ exchange organizations to which the recipient transplant centre belongs.
8. Organs exchanged are allocated for transplantation according to the existing medical criteria of the recipient organization. Such organs may only be used for clinical organ transplantation and not for any other purpose, e.g. research.
9. A yearly meeting is held between representatives of the two organizations to discuss issues of common interest.

Thus signed in two-fold:
